Four Seat Bench	From £360.00	£180.00

Please now read on to find out a little more about our products and services:

We hand-craft each of our products to the highest quality using only the best materials & FSC hardwood timbers available. For all natural finished products, we use either iroko or oak. We paint the internal walls of all our Planters with a thick rubberised paint sealant which creates a barrier between the timber and the soil, this will need to be reapplied after approximately 5 years to prolong the life of your Planters. For all painted products we use Accoya or Tricoya. For all lead products we use Accoya and code 4 lead. Accoya & Tricoya are modified timbers which outperform most natural hardwood's. Please follow this link to find out more about Accoya [www.accoya.com](http://www.accoya.com) and [www.meditetricoya.com](http://www.meditetricoya.com)

**We are able to make each of our products in bespoke sizes as well as being able to paint our painted products in any colour of your choice.**

For all Oak and Iroko finished planters we recommend protecting each product with Osmo UV protection oil. The slatted base is made of a timber called Balau which is also durable. You will need a permeable membrane to lay in the base of the Planter to prevent the soil falling through the slats.

All measurements are in centimetres & exclude the finial height.
